

Chandos House

Although only coming third in the House competition this year, there was definitely an element of increased enthusiasm, which we hope will grow even more in the coming year. Owing to extreme keenness on the part of the junior girls, we managed to win the Netball cup, but this was our only success. The boys certainly failed us in Football, Cricket and Athletics, but the girls also did themselves no credit in Rounders, Tennis and Hockey. Our conduct marks were surprisingly good, since there are certain temperamental people in the lower school, whom we thought might bring the House to disaster. Work being a very important factor in the competition, we ran second to Broomfield, who certainly deserved their win here.

We offer our sincere thanks to Miss Hill, Miss Smith and Mr. Bullen for their help, guidance and encouragement throughout the year.

Next year, with increased enthusiasm, we hope Chandos will once more be Champion House.

M.B. AND P.E.

Lawrence House

The past year has not been a successful one for Lawrence: our position still being bottom in the House competition. It is evident that if we are to obtain a higher position next year our scholastic efforts will have to be conducted with greater enthusiasm.

The senior girls' results were very encouraging. They won both the Tennis and Hockey cups. The junior girls also did very well, obtaining second position in the Netball and Rounders competitions. Unfortunately the boys' record is less inspiring: they came fourth in Football and third in Cricket. We hope that the new first form boys will do a lot to improve this result.

In Athletics the House finished a rather disappointing third, a position which we hope will be improved upon next year. The Swimming Gala this year was very exciting, victory eluding us by the very narrow margin of one point.

We should like to thank Miss Witte and Mr. Booth for the valuable help and encouragement they have given us throughout the past year.

D.S. AND C.D.

HOUSE POINTS FOR 1957-1958

Event	Broomfield	Chandos	Grovelands	Lawrence	Total
Netball	2	4	1	3	10
Hockey	1	2	3	4	10
Football	8	4	6	2	20
Rounders	4	1	2	3	10

Cricket	6	2	8	4	20
Athletics	8	2	6	4	20
Swimming	4	1½	1½	3	10
Conduct	8	12	16	4	40
Work	20	15	10	5	50
Total	63	45½	55½	36	200

A Career for young men that carries responsibility

Coal provides 85% of the total energy requirements in Britain. Because the demand for coal will continue to be high for many years to come, great schemes of reconstruction are being undertaken by the coal mining industry, for which there must be an adequate supply of suitably qualified and well trained men.

University Scholarships.—The National Coal Board offer up to 100 University Scholarships a year for school leavers and Board employees; most are in Mining Engineering and some are available in Mechanical, Electrical, Civil and Chemical Engineering and in Fuel Technology. They are worth about the same as State Scholarships but there is no parental means test.

If you join the Board's service straight from school, you can also apply for University Scholarships in Scientific and non-technical subjects.

Apprenticeship and Part-time Education Schemes.—There are Student Apprenticeship Schemes in Mining, Mechanical and Electrical Engineering as well as Apprenticeship Schemes for Mining Surveyors and Engineering Craftsmen. These Schemes provide for day-release or sandwich courses (with pay) at technical colleges. Other employees are also considered for release with pay to attend technical colleges.

Management Training.—When you are qualified—either through the University or through technical college while working—you are eligible for a two- or three-year course under the Board's Management Training Scheme.

Scientific Careers.—If you are interested in a Scientific Career, there is absorbing and rewarding work at the Board's Research establishments, and in the coalfields on operational work.

Clerical and Administrative Careers.—There are interesting careers in administration, marketing, finance and personnel work, for young men and women of good educational standards.

Prospects.—After qualifying, there is every prospect of promotion to really responsible posts at an early age, and it is possible to earn a four-figure salary by the age of thirty.
